

## Feature Capability Matrix

**ARTAKER** **CAD**

NOTE: Subscriptions to Autodesk Docs via the AEC Collection include access to BIM 360 Docs.

	Autodesk DOCS	BIM 360 Docs
<b>Platform Support</b>		
Autodesk Construction Cloud projects	●	
BIM 360 projects		●
<b>Publishing &amp; Document Control</b>		
Organize and manage documents into transmittals or packages	●	●
Desktop Connector Integration	●	●
Publish from AutoCAD or Revit	●	●
Extract sheet sets from Revit and AutoCAD files	Requires Build	●
Title Block OCR for automatic naming and attribute assignment of PDF files	Requires Build	●
Support for approval review workflow	●	●
Ability to externally share documents and folders	●	●
Microsoft Office file viewing and editing	●	●
Track updates with version control and sheet comparisons	●	●
<b>Viewing &amp; Markups</b>		
Single viewer for both 2D & 3D design files and PDFs	●	●
View files on both Web and iOS / Android mobile apps	Requires Build	●
Support for storing any file type	●	●
Add markups & annotations as shapes or text notes and share or keep private	●	●
Add linear, angle or area measurements to provide additional detail to drawings	●	●
Add hyperlinks to other designs, or to files with additional information or context like photos, RFIs or specs	●	●

## Feature Capability Matrix

	Autodesk DOCS	BIM 360 Docs
<b>Issues</b>		
Create issues and assign to team members to resolve design problems or clarify information	●	●
Pin issues to 2D or 3D design locations	●	●
Maintain a complete audit trail of Issues	●	●
Customize issue types, categories, and root causes	●	●
Sort, Filter, View and Edit issues	●	●
Revit Issues Add-In / Navisworks Issue Integration	Requires BIM Collaborate	●
<b>Reports</b>		
Centralized location where teams can create, schedule, and share project reports	●	●
Configure report templates	●	●
Export reports in PDF or Excel	●	●
<b>Insight</b>		
Customizable project level dashboards for Risk, Design, Project Controls, Quality, Safety	●	●
Customizable account level dashboards for executive analytics	●	●
Add cards from the card library including third party partner cards	●	●
Create and share custom dashboards with other team members	●	Not Available
Export cross project data with Data Connector for use in other robust BI tools	●	Requires BIM 360 Build
Leverage machine learning tool Construction IQ to predict & prevent risk associated with design, quality, safety, and project controls	●	Requires BIM 360 Build
<b>Settings</b>		
Support for project templates, folder structures and permissioning	●	●
Set up automated email notifications	●	●
Use project templates to create new projects	●	●
Customize project settings	●	●
<b>Data Center Location</b>		
Project data can be hosted on regional data centers	US / EU	US / EU
